

Classes and Encapsulation

Current Scope

```
{ public String getFoo() {  
    ..  
    return "yep!"  
}
```

```
public class OurClass {
```

```
    // Fields
```

```
    private int length = 10;
```

```
    // Getters / Setters
```

```
    public int getLength() {  
        return this.length  
    }
```

```
    // Methods
```

```
    public Map<String, Integer> peterPaul() {
```
